
SENIORS IN ACTION

Cilj projekta je podpora in pomoč starejšim ter ljudem s posebnimi potrebami, da kvalitetneje preživljajo svoj prosti čas in so učinkoviteje vključeni v lokalno skupnost ter imajo glede na njihove ovire optimalen dostop tako do kulturnih kot turističnih vsebin.

SENIORS IN ACTION

The aim of the project is to support and help older people and people with disabilities to spend their leisure time better, to be more involved in their local community and to have optimum access to cultural and tourist facilities in view of their constraints.

SENIORS IN ACTION

O PROJEKTU

Razvojna agencija Kozjansko je bila uspešna pri prijavi projekta Seniors in action v okviru programa Erasmus plus.

Projekt se je začel odvijati že v letu 2021, najprej so bila tri delovna srečanja partnerjev preko spletnih orodij in pozneje so sledile prve mobilnosti. Projekt prehaja v zelo aktivno fazo, saj se pripravlja srečanje projektnih partnerjev tudi v Sloveniji.

Cilj projekta je podpora in pomoč starejšim ter ljudem s posebnimi potrebami, da kvalitetneje preživljajo svoj prosti čas in so učinkoviteje vključeni v lokalno skupnost ter imajo glede na njihove ovire optimalen dostop tako do kulturnih kot turističnih vsebin.

V projektu poleg Razvojne agencije Kozjansko sodelujejo še trije mednarodni partnerji in sicer fundacija za podporo in dvig kvalitete življenja ljudi s posebnimi potrebami iz Poljske: **Fundacja Na Rzecz Wspierania Osób Niepełnosprawnych “Wyjdz z Domu”**, organizacija, ki usposablja spremljevalni kader za ljudi s posebnimi potrebami na njihovih potovanjih: **Edunet** iz Romunije in organizacija, ki aktivira

starejše in ljudi s posebnimi potrebami, da soustvarjajo kvalitetnejše preživljanje njihovega prostega časa doma in v tujini: **Eduplus** iz Španije.

Kratkoročni rezultati projekta bodo izmenjava dobrih praks med različnimi državami, različnimi kulturnimi okolji, izboljšanje multilateralnega sodelovanja, večje zavedanje lokalnega okolja za skrb in odnos do ljudi s posebnimi potrebami pri načrtovanju kulturnih dogodkov in turističnih vsebin dostopnih za vse ciljne skupine, tudi skupine s posebnimi potrebami in starejše.

Dolgoročni učinek projekta bo boljša organiziranost dostopnega turizma v vključenih destinacijah, skozi višjo ozaveščenost deležnikov v destinaciji in njihovo načrtno ter odgovorno delovanje tako pri bodočih urbanističnih rešitvah kot tudi organizaciji dogodkov ter vsakdanjega življenja prebivalcev in obiskovalcev s posebnimi potrebami.

Vizija projekta je realizacija optimalno dostopnega turizma za starejše in ljudi s posebnimi potrebami, premagovanje stereotipov ter boljše razumevanje potreb prebivalcev in obiskovalcev s posebnimi potrebami.

SENIORS IN ACTION

ABOUT THE PROJECT

The Kozjansko Development Agency was successful in applying for the Seniors in Action project under the Strategic Partnerships, Erasmus plus programme.

The project started in 2021, first there were three online partner meetings and later the first mobility. The project is now entering a very active phase with the preparations for a meeting of the project partners in Slovenia.

The aim of the project is to support and help older people and people with disabilities to spend their leisure time better, to be more effectively integrated in the local community and to have optimal access to both cultural and tourist facilities, considering their barriers.

In addition to the Kozjansko Development Agency, the project also involves three international partners, namely the Foundation for Supporting and Raising the Quality of Life of People with Disabilities from Poland: Fundacja Na Rzecz Wspierania Osób Niepełnosprawnych “Wyjdź z Domu”, an organisation that trains accompanying staff for people with disabilities on their journeys: Edunet from Romania, and an

organisation that mobilises older people and people with disabilities to co-create a better quality of their leisure time at home and abroad: Eduplus from Spain.

The short-term results of the project will be the exchange of good practices between different countries, different cultural environments and improvement of multilateral cooperation. We will strive for a greater awareness of the local environment for the care and attitude towards people with disabilities in the planning of cultural events and tourism accessible to all target groups, including groups with disabilities and older people.

The long-term impact of the project will be a better organisation of accessible tourism in the destinations involved, through a higher awareness of the stakeholders in the destination and their planned and responsible action both in future urban planning solutions and in the organisation of events and everyday life of residents and visitors with disabilities.

The vision of the project is to achieve optimally accessible tourism for the elderly and people with disabilities, to overcome stereotypes and to better understand the needs of residents and visitors with disabilities.
